# EX MACHINA

Alex Garland • 2014 • USA • 108 minutes

Caleb (Domhnall Gleeson), a coder at the world's largest tech company, wins a competition to spend a week at a private mountain retreat belonging to Nathan (Oscar Isaac), the reclusive CEO of the company. But when Caleb arrives at the remote location he finds that he will have to participate in a strange and fascinating experiment in which he must interact with and test the world's first true artificial intelligence, AVA, housed in the body of a beautiful robot woman (Alicia Vikander).

The **Institute of Cyber Security for Society (iCSS)** is a University-wide institute that promotes interdisciplinary research and education in cyber security and enhances the cyber security skills of students and the wider community.
